

# ARPA-E FELLOWS PROGRAM

## AN ENERGY THINK TANK

The *ARPA-E Fellows Program* consists of highly technical scientists and researchers who will actively help create the strategic direction and vision of the country's first agency devoted exclusively to transformational energy technology research and development. Fellows will support ARPA-E's Program Directors in program creation, while also undertaking independent explorations of promising future research areas for the agency. Fellows will also engage with world class researchers and innovators to develop theses for high impact ARPA-E research program areas, prepare energy technology and economic analyses, and make recommendations to U.S. Department of Energy senior management.

## HIGHLY QUALIFIED CANDIDATES SHOULD POSSESS THE FOLLOWING ATTRIBUTES:

- A passion for energy technology research and development.
- An interest in working in a multi-disciplinary, fast paced energy technology research and development focused environment.
- Strong analytical and research skills and a demonstrated capacity for creative thinking.
- A record of distinguished scholarship and publication.

### ARPA-E Fellows:

- Recent PhD (less than three years) or in rare cases in the process of working toward a PhD in an energy relevant scientific or engineering field.

### ARPA-E Senior Fellows:

- Three or more years of distinctive work experience in an energy innovation related field after earning a PhD in an energy relevant scientific or engineering field.
- Experience and knowledge in technology commercialization is desirable, but not required.

*All ARPA-E Fellows are full-time federal employees paid at a competitive salary.*

## CANDIDATES SHOULD APPLY BY E-MAILING: [ARPA-E-jobs@hq.doe.gov](mailto:ARPA-E-jobs@hq.doe.gov)

1. Updated resume or CV.
2. One-page statement of interest describing relevant experience and expertise, as well as a description of the energy topic areas/project areas they would have the strongest interest in working on as an ARPA-E Fellow.
