April 20, 2011

Dear Colleague:

The Postdoctoral Office at Argonne National Laboratory is organizing a Postdoctoral Research Symposium. The event will take place on October 27, 2011. Research papers, presented by postdoctoral fellows, and senior graduate students will be accepted in the following general research areas: Biology, Chemistry and Biochemistry, Engineering, Environmental Science, Materials Science, Mathematics and Computer Science, Physics and High Energy Physics, and Synchrotron Research.

Please encourage your Postdocs and senior graduate students to present the results of their work at this Symposium. The total time allotted for each presentation is fifteen (15) minutes. They should prepare a 12-minute presentation and allow an additional 3 minutes for questions from the audience. A poster session is also planned along with a wine and cheese reception to promote networking among Argonne scientists, and academic and industrial professionals.

All Symposium presenters and attendees are required to pre-register and to pay a \$100 registration fee on or before September 21, 2011. The registration fee includes continental breakfast, lunch, and a wine and cheese reception that will be held on Wednesday evening.

Instructions for preparation of abstracts, abstract submission, and registration information are available online at <http://www.dep.anl.gov/postdocs/symposium>

We would appreciate it if you would post the Symposium Flyer where Postdocs and graduate students are likely to see it. Abstracts and final program information will be posted on our website by October 23, 2011.

Thank you for your help in promoting this important event.

Sincerely,

A handwritten signature in black ink, appearing to read "Kristene Henne".

Kristene Henne, Ph.D.
Postdoctoral Programs Coordinator
